Subject: Microsoft Settlement

Recently I "signed" (electronically) a letter found at <http://www.kegel.com/remedy> and this is to be sure you understand it was not done hastily or without consideration. The points made by Dan Kegel were better expressed than had I written my own simple paragraph. I believe it will be a travesty of Justice if the Microsoft case is not brought to a stricter settlement and accounting. I urge you to hold Microsoft to a much stricter standard than that which has been proposed, so as to meet the concerns expressed by Mr. Kegel directly and by me, through his well done web site and commentary. Thank you.
